

## Exercise 3: Declaring and Using Variables

### Clone your repository

1. Click the appropriate link and accept the assignment to create your repository for submitting your work:
  - Gallant AM: <https://classroom.github.com/a/6cvXkuVl>
  - Gallant PM: <https://classroom.github.com/a/5P9lVslj>
  - Nunn AM: <https://classroom.github.com/a/84D2pfxY>
  - Nunn PM: <https://classroom.github.com/a/PNi4BOhB>
  - Wijaya AM: <https://classroom.github.com/a/VT2BG2Gv>
  - Wijaya PM: <https://classroom.github.com/a/2mKh8ru4>
2. In GitHub Desktop, clone the repository to your desktop.

*You are now ready to begin the exercise.*

### Problem – Declaring and using variables

3. In Visual Studio, create a new C# Console App named **Exercise3** and save it in the repository folder you just created.
  - a. If you don't remember where you saved it, go to GitHub Desktop and click the Open in Explorer button or go to Repository menu and select Open in Explorer there.
4. In the **Main** method, do the following:
  - a. Declare a variable named age of type **int**.
  - b. Store your age in this variable.
  - c. Print the value of the variable to the user.
5. Commit your changes in GitHub Desktop with commit message "Complete through step 4"

### Submit Your Work

6. Make a final test of your code and copy the output from the terminal window.
7. If you need to make any additional changes to your code, make sure you commit them.
8. By committing and pushing your updates to GitHub you have submitted your assignment on GitHub Classroom.
9. Return to CodeHS. Paste your output into the code window to complete the assignment.
